OBJECTIVE

To find an entry level software development position at a company that will allow me to grow professionally, as well as contribute to the success of the company using my software development skills in Visual Studio, C#, HTML, ASP.NET, SQL Server, and Windows Forms – while learning and applying new tools and technologies for full stack development.

EDUCATION AND HONORS

Graduated from OSU Flex Web Development Bootcamp, February 2024
Graduated from Liberty University Online, May 2020
B.S. in Information Technology: Application and Database Development
Graduated Summa Cum Laude with a 4.00 grade-point average
Member of Sigma Beta Delta Honor Society

PROJECTS

Liberty University Capstone Project   **1/2020 – 5/2020**
Columbus, Ohio
- I successfully created a bug-tracking system for a hypothetical video game company, tying together knowledge I had learned in some major classes of my degree.
- This was an individual project.
- Technologies used: Visual Studio, C#, HTML, ASP.NET, SQL Server

Internship with Advanced Architectural Panels Inc.   **8/2020 – 1/2021**
Columbus, Ohio
- I helped create and test various pieces of a Windows application that will allow users to estimate construction costs from a digital display of a blueprint.   It will allow them to determine material quantities and costs for a construction project. Each material will have a different colored representation that the user draws over top of the blueprint.
- This was a group project.
- Technologies used: Visual Studio, C#, Windows Forms, SQL Server

EXPERIENCE

StoneX Financial, Inc.
Client Services Associate   **7/2021 - 8/2023**

- Answered phone calls, web chats and emails as they came in
- Assisted people with resetting their passwords, accessing their account statements, and technical questions about how to use the company's software
- Assisted with troubleshooting customers' problems, such as why they couldn't see market data, why their software wasn't working the way they expected, and why they couldn't connect to our servers.
- Assisted with the mailing out of 1099 forms

Advanced Architectural Products, Inc.   **8/2020 – 1/2021**
Internship
- Assisted in the development of TakeOff 2020, a graphical Windows Forms application (C#) that will allow Advanced Architectural Panels and other companies to estimate material costs of various construction jobs
- Developed components and logic needed to allow the user to select and estimate materials count and costs for various construction jobs

Raisin Rack Natural Food Market   **12/2016 – 7/2021**
Café Worker/Cashier
- Prepared food orders correctly to fill customer requests
- Functioned as part of a dynamic team, working to meet demand and maintain standards of quality and cleanliness

Gabriel Morrow

- Managed multiple priorities and maintained quality customer service, even under pressure of high-volume periods

Dollar General   **1/2016 – 12/2016**
Cashier
- Greeted customers as they entered the store
- Performed checkout duties for customers and merchandise recovery for out-of-place items
- Stocked shelves with new merchandise
